PROJECTS

NaivoTech – Educational Platform | Laravel | [Link](#)

- Built a hybrid (online & offline) educational platform with course and product selling features.
- Developed role-based dashboards for Admin, School, Educator, and Student users.
- Integrated Google Meet, Razorpay, and Google Calendar for live classes, payments, and scheduling.
- Focused on secure, scalable development with user-friendly UI and smooth functionality.

LuxyBySandy – Educational Platform | Laravel | [Link](#)

- Developed a bilingual (English & Arabic) e-commerce platform with Stripe payment integration and USPS shipping (US Shipping).
- Designed a dynamic Admin Dashboard for seamless product, order, and content management.
- Focused on responsive UI and smooth user experience for global customers.

Serviendo – Cleaning Service Website & Mobile App Content | Laravel | [Link](#)

- Developed a dynamic website to showcase cleaning services, featuring a robust Admin Dashboard for real-time management of content and assets.
- Integrated the Admin Panel to manage the database used by both the website and the Serviendo mobile app, enabling dynamic updates across platforms.
- Focused on delivering a seamless user experience and centralized control for efficient management of web and mobile content.

HurryUpCabs – Cabs Booking Website | Laravel | [Link](#)

- Developed HurryUpCabs, a cab booking platform for PAN India, allowing users to book rides directly through the website. Integrated Google Maps APIs for real-time location tracking, route mapping, and seamless user experience.

Voice & Tour Navigator | MERN Stack Development | [Link](#)

- Built Voice & Tour Navigator, a plugin-based web solution enabling voice-controlled navigation and interactive tour guides for websites. Designed with a user-friendly setup process, the system enhances accessibility and user engagement through innovative voice technology.

OwnYourCap | MERN Stack Development

- Developed OwnYourCap, a one-stop online store for branded caps using the MERN stack (MongoDB, Express.js, React, Node.js). Implemented features such as seamless product browsing, secure payment integration, and efficient shipping workflows to deliver a high-quality e-commerce experience.
